2026 IFHE International Building Award

Call for submissions: new healthcare buildings and major renovations

Deadline
July 31, 2026
12:00pm GMT

You are invited to submit a healthcare project—either a new build or a major renovation—for consideration for the 2026 IFHE International Building Award. The award recognizes excellence in healthcare facility design and construction, celebrating projects that demonstrate innovation, sustainability, functionality, and a strong commitment to human-centred care.

Eligibility

Project must be substantially completed between January 01, 2024 and January 31, 2026 or in operation after January 01, 2024

What to include

- Project name, location, organization, and IFHE member association affiliation
- Project team, completion date, building type and size
- Number of patient beds and total project cost
- Primary submission contact name, organization, and email
- 10–20 photographs of the project

Judging Themes

- Physical health and wellbeing
- Mental health and wellbeing
- Accessibility
- Independent living and privacy
- Functionality of everyday activities
- Contribution to urban context
- Environmental sustainability
- Design innovation and best practices

How to submit

Email all submission materials to Dan Fuochi, Executive Director, International Federation of Healthcare Engineering.

Email: d.fuochi@ifhe.info
