Dear IFHE General Secretary Darryl Pitcher,

Dear IFHE Secretariat Dan Fuochi,

On behalf of the National Council of S.I.A.I.S. – Italian Society of Architecture and Engineering for Healthcare, we are pleased to formally nominate Eng. Daniela Pedrini, President of SIAIS, as a candidate for the IFHE Executive Committee for the 2026–2028 term.

Eng. Daniela Pedrini has extensive experience in healthcare engineering, hospital planning, infrastructure development, and the technical management of complex healthcare facilities. As President of SIAIS, she has promoted innovation, safety, sustainability, and international cooperation within the healthcare engineering community.

Her professional background, leadership experience, and strong commitment to IFHE values make her a highly qualified candidate to contribute to the work of the Executive Committee. In particular, her experience and active involvement in the European healthcare engineering network would allow her to act as an effective bridge between IFHE and the European national associations, strengthening cooperation, knowledge exchange, and shared initiatives.

The National Council of SIAIS fully supports her candidacy and believes that her contribution would bring significant value to the future development of the Federation.

Sincerely,

S.I.A.I.S. President National Council
Eng. Daniela Pedrini
